

Hussein Falih

Senior Modeller

Bio

Hussein studies civil engineering and has a masters degree in Engineering Management. He started his career in Dubai, then moved to Germany and now based in London, UK. He has 8 years of experience in transport modelling including demand modelling, scripting (Python), traffic engineering, microsimulation modelling, discrete choice analysis, ride sharing (Maas), product management, and application of machine learning in transport modelling.

Presentation

Building Vissim models fast

Hussein will showcase how easy and fast it is to build Vissim models by switching between macroscopic simulation and microscopic simulation by exchanging network files from PTV Visum to PTV Vissim and vice versa.
